

Making a BookSnap Review

Jude, Noah, Noah, Jude: brother and sister who share a bond that only twins can understand. A series of events unfold which cause Jude and Noah to build and live in a world of secrets, anger, and deception -one of which is the death of Jude and Noah's mother. Each feeling responsible in their own way for their mother's death has caused Jude and Noah to turn off parts of themselves which closes them off to life, love and but fuels a fierce competition and sibling rivalry.

This is an amazing story of guilt, secrets and love felt by twins Jude and Noah after the death of their mother. I love books with witty dialogue and interesting characters. This book has that and so much more!

Rating ★★★★★

A BookSnap Book Review is a fun and innovative way to create a book review in a snap!. Originally created to be used on SnapChat, BookSnaps can also be created on other platforms.

Your review will use Google Slides to create a unique “snapshot” or glimpse of a book that you choose to review. In the slide you will include **appropriate** visual clues and text sharing what you liked or did not like about it, your personal opinion as to why or why not and any additional images, graphics or emojis that help support your opinion of the book.

The main elements of a BookSnap uses a Google slide as a blank canvas and must include:

1. A picture of the book (that must include the full title and author of the book).
2. A brief summary of the book (no spoilers please!)
3. Text explaining what you liked or disliked about the book.
4. Visually represent your thoughts of the book you chose using Images, pictures that help readers get a sense of what the book is about
5. A rating on a scale of 1-5

When your BookSnap is complete, you will download it to a JPEG or PNG and submit it to me to be posted on the website.

Have fun with this!

You can also find additional information on different types of images and tools you can use for Google Slides at <https://www.tammartin.com/resources/booksnaps-how-to-videos/>
